Distribution Date: *Notices mailed on 7/8/2022.*

Ohop Lake will be treated with Aquatic herbicides on or between of July 18th and August 19th, 2022 weather permitting. Only one application is anticipated. The application will not take place on weekends or holidays.

Product(s) planned for use: Aquathol, Littora, and Clearcast

Active ingredient(s): Endothall, Diquat Dibromide, Imazamox

Plants/Algae targeted: Invasive Brazilian elodea, Invasive Curlyleaf Pondweed, and Invasive white water lily

Location of treatment(s): Ohop Lake

The applicator will post signs in the treated and potentially affected areas no more than 48 hours prior to treatment. The signs will describe any water use restrictions or advisories. There is a 24 hour swim advisory. 3 day turf and 5 day ornamental and food crop irrigation restriction.

If you are withdrawing water for potable or domestic water use, livestock watering, or irrigation, and have no alternate water source, please contact AquaTechnex at (360) 330-0152 to arrange an alternate water supply.

If you want additional notification prior to treatment, or have further questions, please contact AquaTechnex using the information above. This herbicide treatment is regulated under a permit issued by the Washington State Department of Ecology. Permit No. WAG994082
